80 SERIES—TWO TIER, FLAT SHELF WITH LIGHTS

The CounterSpec sneeze guard product line has been designed to provide a durable, fully customizable system of food guards to meet the demands of high volume food service operations. The stainless steel all welded construction, through-the-counter installation, LED lights and 3/8" tempered glass are all key components of the CounterSpec value. With optional heat lamps, powder coating and glass styles, CounterSpec can provide the product your operation requires.

- All fully welded construction
- Available in 1" round or 1" square stainless steel tubing
- Powder coated and mirror finishes available (optional)
- Flat or sloped lower shelf
- LED lights
- 3/8" tempered glass
- Heat lamps with remote controls (optional)
- Fixed or adjustable glass

Additional designs, options and accessories are available. Contact our sales department for more information.
